

Visual Studio Code interface showing a Jupyter Notebook cell. The cell contains the code `open("/path/to/mars.jpg")`. The output shows a `FileNotFoundError` with the message: `FileNotFoundError: [Errno 2] No such file or directory: '/path/to/mars.jpg'`. The traceback indicates the error occurred in `Modulo10.ipynb Cell 2`.

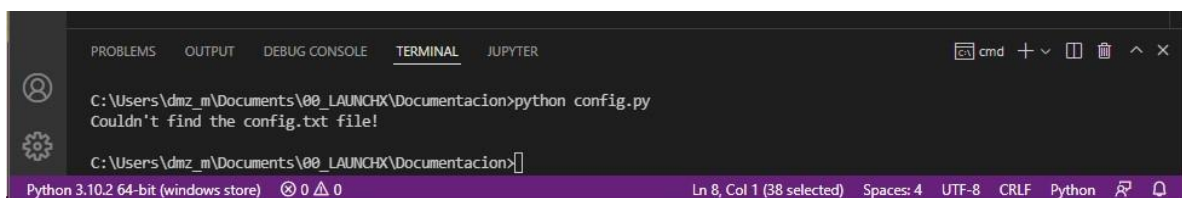

Windows Command Prompt terminal showing directory navigation and a Python error. The commands executed are `cd 00_LAUNCHX` and `cd Documentacion`. The command `python3 open.py` results in a `FileNotFoundError: [Errno 2] No such file or directory: '/path/to/mars.jpg'`. The status bar at the bottom indicates the file is at line 5, column 11.

Jupyter Notebook cell showing a try-except block. The code is `try: open('config.txt') except FileNotFoundError: print("Couldn't find the config.txt file!")`. The output shows the message `Couldn't find the config.txt file!`. The status bar at the bottom indicates the file is at line 5, column 11.

Windows Command Prompt terminal showing a permission error. The command `python config.py` results in a `PermissionError: [Errno 13] Permission denied: 'config.txt'`. The status bar at the bottom indicates the file is at line 9, column 11.

Windows Command Prompt terminal showing a file not found error. The command `python config.py` results in the message `Couldn't find the config.txt file!`. The status bar at the bottom indicates the file is at line 8, column 1 (38 selected).
